

SMELLY-DOG SHAMPOO

*Specially-formulated to deodorize your pet
for longer periods of time!*

*Got a Smelly-Dog? Want some relief?
So does your dog...*

*Most "deodorizing" pet shampoos leave your pet smelling
clean for only a couple days. Smelly-Dog has been specially
formulated to deodorize your pet for longer time periods.*

*Smelly-Dog shampoo kills the bacteria that thrive on
the oil secreted by the pet's skin, yet does not dry out the
skin. Other shampoos can use chemical shampoos that rinse
away the oil but do not remove the bacterial source of the odor.*

*Smelly-Dog uses only food-grade ingredients, so you don't
have to worry when your pet takes a drink of bath water or
licks itself dry. Other shampoos might use chemicals that
could leave you wondering if they are healthy or safe.*

Directions: With lukewarm water, thoroughly wet pet's skin and coat. Apply shampoo and work into a good lather. Massage thoroughly into coat, trying to work the lather into all areas of the coat. Rinse thoroughly.

Caution: For external use only. Avoid eye contact. If eye contact occurs, rinse well. Keep out of reach of children.

Ingredients: water/aqua/eau, polyglycerly laurate, camelia sinensis (green tea) decaffeinated leaf extract, ascorbic acid, aginine, rosmarinus officinalis (rosemary) leaf oil, mentha piperita (peppermint) oil.

*~ Available in three sizes ~
2oz, 4oz and 8oz Bottles!*
